

Dear Mr. Bill

I want to thank you for your kindness and willingness to help me find a dog to help me means more to me than I could ever put in to words I Truly beleve god above has put you in my life at the time I needed this kind of help most and from our talks on the phone.

I get the impression you are not going to give up until every option is exhausted and that is something no one outside my parents have every done for me I can find the right words to every Thank you and if I get placed with a dog I know my life and world will be changing for the better and I might finally be able to a bit more indepeat and that would be a dream for me and to have a servous dog that can guide me a little when needed pick stuff up I drop and help carry stuff in a store would change my life by its self but if I remember right you said they can do so much more now the cover block thing will be a blessing to me I hope this letter and card can express how thankful I Truly am
